

TRENT VALLEY REFRIGERATION LTD

ENVIRONMENT

POLICY STATEMENT

16 June 2007

Trent Valley Refrigeration Ltd engages in activities and uses products & equipment which if not handled or used correctly can have a detrimental effect on our environment.

The company will therefore prepare, adopt and enforce policies to ensure:

The companies business is managed in such a way as to minimise its impact on the environment and conserve natural resources.

- All applicable environmental legislation and regulations are complied with.
- Where laws or regulations are not adequately protective or do not exist then company policies shall be set up to protect the environment.
- Adequate environmental training, instruction and supervision are achieved.
- Our actions minimise the risk of environmental contamination.
- We aim for continuous improvement in our environmental performance.
- We actively promote the use of environmentally friendly products and systems where possible.
- We actively promote the use of systems which operate both effectively and efficiently using refrigerants which have a low global warming potential (GWP). This gives rise to a lower total equivalent warming impact (TEWI) over the working life of the system.
- We use re-cycled materials and products where possible.

This policy will be regularly monitored and reviewed to ensure that the objectives are achieved
